## SECTION I - FUNDING OPPORTUNITY DESCRIPTION

## A. STATEMENT OF PURPOSE

The Federal Highway Administration (FHWA) is accepting applications for the award of one cooperative agreement) to develop case studies of State DOT and MPO transportation-related climate change adaptation activities. Communities across the nation are beginning to feel the impacts of climate change. The past several years have brought devastating floods, heat waves, wildfires, and droughts. These events foreshadow the increasing impacts we are likely to see in a world with a changing climate. Some state and local governments are leading the charge on adaptation efforts. There is significant interest in tracking climate change multi-modal adaptation activities undertaken by State DOTs, MPOs, and other transportation entities.

#### **B. LEGISLATIVE AUTHORITY**

Legislative authority to award a cooperative agreement for this effort is found in Section 5207 of the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) (P. L.109-59), which established the Surface Transportation Environmental and Planning Cooperative Research Program (STEP). The general objective of STEP is to improve understanding of the complex relationship between surface transportation, planning and the environment.

Statutory Authority to award this cooperative agreement is also derived from 23 USC 502 (b)(3) as amended by P.L. 109-59- August 10, 2005. Per Section 5201 paragraph (c)(3) COOPERATION, GRANTS AND CONTRACTS.- "The Secretary may carry out research, development, and technology transfer activities related to transportation- ... (C) by making grants to, and entering into contracts and cooperative agreements with one or more of the following: the National Academy of Sciences, the American Association of State Highway and Transportation Officials, any Federal laboratory, Federal agency, State agency, authority, association, institution, for-profit, or non-profit Corporation, organization, foreign country, or any other person."

## C. BACKGROUND

There is significant interest in tracking climate change multi-modal adaptation activities undertaken by State DOTs, MPOs, and other transportation entities. This project will develop case studies from around the country so that FHWA can track and analyze them. The case studies will also serve as examples to State DOTs and MPOs across the country interested in initiating their own adaptation activities.

## **D.** Objectives

This project will develop case studies of State DOT and MPO on transportation-related climate change activities. The case studies will be featured on the FHWA Climate Change website at: <a href="http://fhwatest.fhwa.dot.gov/environment/climate\_change/">http://fhwatest.fhwa.dot.gov/environment/climate\_change/</a> for use by transportation stakeholders – especially State DOTs and MPOs.

The research project is intended to accomplish the following goals:

- Provide a central location for State DOTs, MPOs, and other transportation agencies to go
  to learn about and draw from transportation climate change adaptation work done by
  transportation agencies in other regions.
- Serve as a resource for USDOT to use to target educational and outreach efforts.

#### E. STATEMENT OF WORK

The recipient will conduct the following tasks to achieve the objectives of the cooperative agreement.

## Task 1 – Work Plan and Kick-Off Meeting

The Recipient will schedule a kickoff meeting with the Agreement Officer's Technical Representative (AOTR) within two weeks of the agreement award date. The Recipient will prepare all materials and lead the scheduling of the meeting. The scope, tasks, and deliverables will be discussed during this meeting. The Recipient will submit the kickoff meeting minutes along with a draft Project Work Plan based on the input of the AOTR, three weeks after the effective date of the agreement.

## Task 2 – Develop Case Studies

For each case study the recipient will:

- Provide FHWA with a list of at least <u>125</u> (in groupings of 25) transportation-related climate change adaptation activity or action undertaken by State DOTs and MPOs that have occurred since 2009, or are occurring;
- Draft a <u>200-800</u> word summary of each adaptation activity or action including internet links;
- Identify activity type (type of adaptation activity or action), relevant transportation mode(s), implementing agency category (DOT, MPO, university, etc.), geographical location, and other search terms to be determined in consultation with AOTR; and,
- Include both on-going and completed activities as information is available;
- Consult with AOTR before beginning work on case studies funded by this effort. It is anticipated that the AOTR will assist the recipient in identifying resources for inclusion, and;
- Provide FHWA the opportunity to review and comment on each case study before a final version is submitted.

FHWA is specifically looking for examples of State DOT and MPOs that are undertaking, or have undertaken, assessments of vulnerabilities or negative risks posed by climate change effects or extreme weather events on transportation infrastructure. Examples of State or MPO adaptation activities include:

- System or area vulnerability assessments (not project-level assessments) that are well underway or complete;
- Assessments conducted by or with substantial involvement of the State DOT or MPO;

- Assessments included in a State plan or program, or that applies to the State or a portion of the State;
- Assessments conducted as part of an MPOs long-range transportation plan (LRTP) or Transportation Improvement Plan (TIP), or that applies to the MPO planning area or a portion of it (e.g., a corridor assessment);
- Assessments of vulnerability or risk, and;
- Asset management or similar studies focused on climate change or extreme weather event impacts.

## Task 3 – Update Existing and Develop New Case Studies

The recipient will:

- Ensure that existing resource summaries remain up-to-date (examples of updates include changes/additions of website links, changes in status of documents (i.e. draft to final), and case study contact information);
- Add up to <u>30</u> new case studies. The recipient will identify specific activities based on the criteria outlined above for inclusion;
- Consult with AOTR before beginning work on case studies funded by this effort. It is anticipated that the AOTR will assist the recipient in identifying resources for inclusion, and;
- Provide FHWA the opportunity to review and comment on each case study before a final version is submitted.

## Task 4 – Quarterly Coordination Meetings with AOTR and FHWA Staff

The recipient will:

a. Schedule quarterly status meetings with the AOTR and FHWA staff to provide project updates, any anticipated issues or problems, and any technical issues that need to be addressed by FHWA

## F. SECTION 508 OF THE REHABILITATION ACT OF 1973

While the requirements of Section 508 of the Rehabilitation Act of 1973, as amended, do not apply to assistance agreements, the FHWA is subject to the Act's requirements that all documents posted on an FHWA or FHWA-hosted website comply with the accessibility standards of the Act. Accordingly, final deliverable reports prepared under this agreement and submitted in electronic format must be submitted in a format whereby FHWA can easily meet the requirements of Section 508 of the Rehabilitation Act of 1973, as amended.

NOTE: Quarterly Progress Reports and financial reports are not considered final deliverables and therefore the following requirements do not apply.

All final reports prepared under this agreement and the website required under this agreement must meet the requirements of Section 508 of the Rehabilitation Act of 1973, as amended. The Act requires that all electronic products prepared for the Federal Government be accessible to

<sup>\*</sup>All deliverables must be submitted in both Word and pdf format.

persons with disabilities, including those with vision, hearing, cognitive, and mobility impairments. View Section 508 of the Rehabilitation Act (http://www.access-board.gov/508/508standards.htm - PART 1194) and the Federal IT Accessibility Initiative Home Page (http://section508.gov) for detailed information. The following paragraphs summarize the requirements for preparing FHWA reports in conformance with Section 508 for eventual posting by FHWA to an FHWA-sponsored website.

## Electronic documents with images

Provide a text equivalent for every non-text element (including photographs, charts and equations) in all publications prepared in electronic format. Use descriptions such as "alt" and "longdesc" for all non-text images or place them in element content. For all documents prepared, vendors must prepare one standard HTML format as described in this statement of work AND one text format that includes descriptions for all non-text images. "Text equivalent" means text sufficient to reasonably describe the image. Images that are merely decorative require only a very brief "text equivalent" description. However, images that convey information that is important to the content of the report require text sufficient to reasonably describe that image and its purpose within the context of the report.

## Electronic documents with complex charts or data tables

When preparing tables that are heavily designed, prepare adequate alternate information, so that assistive technologies can read them out. Identify row and column headers for data tables. Provide the information in a non-linear form. Markups will be used to associate data cells and header cells for data tables that have two or more logical levels of row and column headers.

## Electronic documents with forms

When electronic forms are designed to be completed on-line, the form will allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

## SECTION V – APPLICATION REVIEW INFORMATION

## A. EVALUATION FOR RESPONSIVENESS

FHWA will evaluate the applications for responsiveness to the request for applications. If an application is found to be nonresponsive at any time during evaluation, the FHWA will notify the applicant of the non-responsive determination, and the application will not receive further consideration, unless otherwise determined by the Agreement Officer (AO) that further consideration is in the best interest of the Government. The FHWA also will consider the application non-responsive for any of the following reasons:

## **B. EVALUATION CRITERIA**

The Government will evaluate applications and select the applicants based on the criteria listed below.

**TECHNICAL:** The applicant's technical competence and understanding of the activities required to fulfill the objectives of this agreement. Technical applications will be evaluated based on the following criteria which are listed in descending order of importance:

## 1. Understanding and Approach.

The proposal demonstrates the qualifications and experience of the project team's technical experts in performing similar work.

- a. The extent to which the application describes knowledge of current and planned State and local transportation-related adaptation activities (level of knowledge must be beyond knowing whether or not the state/local entity has an adaptation plan).
- b. The extent to which the application shows methods in documenting transportation-related climate change adaptation activities at the national level.
- c. The extent to which availability and ability to be readily accessible to the DC metropolitan area for meetings with FHWA staff on a quarterly basis (in-person meetings are preferable).

Note: Sub-factors a, b, and c are in descending order of importance.

## 2. Staffing Capabilities

The proposal demonstrates that the proposed staff possesses the technical skills, qualifications, and experience to complete the proposed effort.

- a. Qualifications of principal investigator and key members in firmware development, product testing, and technical training.
- b. Cost efficient utilization of staffing categories

Note: Sub-factor a. is of greater importance than sub-factor b.

## 3. Resources.

a. The proposal demonstrates the project team has access to appropriate resources to complete the proposed effort. The facilities, equipment, software, information, etc. are available to perform the work satisfactorily and on schedule.

**PAST PERFORMANCE**: The Government will evaluate the relevant merits of each applicant's past performance based on its reputation and record with its current and/or former customers with respect to quality, timeliness and cost control. Past performance will be reviewed to assure that the applicant has relevant and successful experience and will be considered in the ultimate award decision, but will not be soared. In evaluating past performance, the Government may consider both written information provided in the application, as well as any other information available to the Government through outside sources. In the event an applicant does not have a

record of relevant past performance, the applicant's past performance will not be evaluated favorably or unfavorably.

**COST**: In addition to the criteria listed above, the relative total project cost will be considered in the ultimate award decision. The budget application will be analyzed to assess cost reasonableness and conformance to applicable cost principles.

#### C. REVIEW AND SELECTION PROCESS

The Government will accept the application that is considered the most advantageous to the Government taking into account the best use of available funds to meet the objectives of the program legislation. The three evaluation factors are in descending order of importance: (1) Technical, (2) Past Performance, and (3) Cost, with Technical more important in the resultant award decision than Cost and Past Performance combined.

The AO is the official responsible for final award selections. The Government is not obligated to make any award as a result of this announcement.

## D. ANTICIPATED ANNOUNCEMENT AND AWARD DATES

FHWA anticipates making an award on or about January 25, 2013.

## E. AWARD NOTICES

After AOTR approval, the AO will certify and forward the request for reimbursement to the payment office via DELPHI eInvoicing System.

Advance Payments: Approved Advance Payments will be processed via Markview. Instructions for the use of Markview will be provided after the Advance Payment is approved. Advance Payments will NOT be processed using the DELPHI eInvoicing System. Recipients may be paid

DELPHI eInvoicing System Registration and Information

The Recipient must have Internet access to register and use the DELPHI eInvoicing System. Prompt registration for DELPHI eInvoicing System is important in order to reduce the possibility of delayed payments.

All persons accessing the DELPHI eInvoicing System will be required to have their own unique user ID and password. It is not possible to have a generic ID and password for a Recipient.

To register for DELPHI eInvoicing System Recipients must eAuthenticate and activate an account by contacting their AO and providing the full name, title, phone number and e-mail address for the appropriate point(s) of contact (POC) who will submit payment requests. Within two weeks the POC should receive an invite to sign up for the system. The POC will also receive a form to verify their identity. The POC must complete the form, and present it to a Notary Public for verification. The POC will return the notarized form to:

DOT Enterprise Service Center FAA Accounts Payable, AMZ-100 PO Box 25710 Oklahoma City, OK 73125

When the form is received and validated the Recipient POC will receive a unique user ID and password via e-mail. POCs should contact their AO with any changes to their system information.

A tutorial for the eAuthentication and account activation process can be found here: http://www.dot.gov/cfo/delphi/grant-gecipient/eauthentication-user-tutorial-final.ppt

Recipients registered with other DOT Agencies, such as Federal Aviation Administration or Federal Railroad Administration, must also apply for access with FHWA in order to request payment from FHWA.

To facilitate your use of the system the DELPHI elivoicing website provides comprehensive user's information including:

- Web-based training at <a href="http://www.dot.gov/cfo/delphi/web-based-training/grant-recipient/lessons/index.html">http://www.dot.gov/cfo/delphi/web-based-training/grant-recipient/lessons/index.html</a>,
